To whom it may concern,

I believe as a citizen of this country that further litigation serves no purpose but to waste my tax dollars and does not do what is important for the economy. Why waste Millions in tax revenues that could be used for the war effort or education in this country, when the benefit to be gained "Might" lower the price of the OS a few dollars and save the average consumer, with a PC, \$10 over several years? and of course \$10 to the price of a \$600 makes little difference.

Marshall Brown II
